

JOSEH – ENTROPY

Entropy is the third album by Joseh and his eight-piece band.

The album presents a musical question about Joseh's own history and his identity. He explores the incredibly diverse origins of Filipino music and deals with themes such as strangeness, familiarity, search and curiosity. The eleven songs present some surprising cultural intersections to the listener. A harp regularly dances over a classical guitar-bass-drum-foundation, and instruments such as harp, psaltery, lute, flute and didgeridoo are shaking on familiar listening habits.

The first single release **LIFE IS GOLD** (feat. Guacáyo singer Sophie Filip) with its reggaeton beats, accordion sounds and harp solo is echoing the brilliant spectrum of the album.
